

ANECHOX 35L

The AnechoX 35L DOMINATES the competition! The ultimate can for the ultimate hunter in calibers to .338 Lapua and 35 caliber/9mm.

The AnechoX 35L is the absolute state of the art and the pinnacle of performance for its weight, sound, and serviceability. Its flow-thru design virtually eliminates backpressure change, thus eliminating gas in your face when shooting full-auto and/or extreme rapid-fire on 5.56/.223.

All AnechoX suppressors use the unique X-Baffle Anechoic™ Chamber System with an interrupted central tube and are finished with Cerakote C Series high temperature thin film ceramic.

All AnechoX 35L suppressors are made of Grade 5 STA 1000 Titanium (basically the highest alloy Titanium in its strongest heat-treat condition) with Stainless 17-4 H900 (ditto for stainless) blast chambers and blast baffles to handle the extreme erosion, highest uncorking pressure, and temperature right at your firearm's muzzle.

Materials	Heat-Treated Grade 5 Titanium, Heat-Treated 17-4 Stainless Steel
Coating	Cerakote C Series high temperature thin film ceramic
Caliber	9mm, .357 Mag, .223, 5.56mm, 7.62/308, 30-06, 300 Mag, 338 Mag, 338 Lapua, 350 Mag
