

The AnechoX 45L PULVERIZES sound and recoil from big-bore handguns and rifles. The ultimate can for the ultimate man. The AnechoX 45L is the absolute state of the art and the pinnacle of performance for its weight, sound, and serviceability.

The compact 6.65-inch AnechoX 45L is the lightest, quietest, user-serviceable Titanium Suppressor for large caliber handguns and many big-bore rifles to 45 cal magnums. At just 8.2 ounces, it is the ultimate minimalist hunting 'can' for rifles up to .458 Win Mag.

All AnechoX suppressors are made of Grade 5 STA 1000 Titanium (basically the highest alloy Titanium in its strongest heat-treat condition) with 17-4 H900 Stainless (ditto for stainless) blast chambers and blast baffles to handle the extreme erosion, uncorking pressure, and temperature right at your firearm's muzzle.

All AnechoX suppressors use the unique X-Baffle Anechoic™ Chamber System with an interrupted central tube and are finished with Cerakote C Series high-temperature thin film ceramic.
